

BUSINESS SUCCESSION PLANNING WEBINARS

Families face many challenges during a business transition. Unaddressed, this can lead to tension, unhappiness and even family conflict. We've invited Ian Cubitt, CPA and experienced Business Transition Coach, to explain a faith-friendly approach that can lead to a successful transition and avoids common problems.

Are you trying to decide...

- If you should transition ownership to others?
- How to grow your business and expand your ownership group, perhaps with family members?
- If you should add co-owners or open ownership opportunities to employees?

Participation in this valuable series will give you:

- Clarity on your needs and desires... and what success looks like.
- Confidence about the best next-steps.
- The opportunity to experience more of what you desire.
- Clarity about one of your biggest obstacles.

Registration cost \$149 per business/family
